ABOUT ME

Motivated FinTech student with hands-on experience in data analytics, digital projects, and customer operations. Strong in Python, Tableau, and workflow optimisation, with a proven track record of accuracy, leadership, and disciplined performance across logistics, retail, and service environments.

EDUCATION

Nanyang Polytechnic
(2024–2027)
Diploma in Digital Business & Financial Technology (DBFT)
CCA: SIT Club

Peirce Secondary School
(2020–2023)

- GCE O-Levels — A in English Language
- CCA: Officer-in-Charge, St. John Brigade (SJAB)
- Received Numerous Good Progress Awards

PROFESSIONAL EXPERIENCE

2025 – 2026

Stacked Store – Retail Assistant

- Operated POS terminals for 100+ transactions per shift across cash and card, closing daily with zero till discrepancies.
- Performed weekly stock takes and cycle counts, holding stock accuracy above 98%.
- Handled deliveries, replenishment and visual merchandising, keeping the floor sale-ready for daily opening.

Sep 2025

Maersk (adidas) – Warehouse Assistant

- Picked, packed and dispatched adidas footwear and apparel in a high-volume operation, meeting daily dispatch targets.
- Verified SKUs, quantities and order details to keep fulfilment accurate.
- Supported stock movement and replenishment per packing and labelling requirements.

2024 – 2025

SAFRA – Customer Service (Shooting Range)

- Managed the issuance and safekeeping of 200+ rifles weekly while complying with strict safety protocols.
- Processed membership transactions and bookings with 100% accuracy using Excel and digital POS systems.
- Enhanced range operations by optimising equipment logging, reducing customer wait times by up to 20% during busy periods.

Jan 2024 – March 2024

LivActiv – Retail Assistant

- Drove positive customer experiences, assisting an average of 60–80 customers per shift with purchasing decisions.
- Achieved consistent cashiering accuracy with zero recorded discrepancies across transactions.
- Organised inventory and restocked merchandise, reducing product search time and improving store readiness for daily opening.

- Fast learning & adaptive mindset
- Team collaboration
- Time management & reliability

Languages:

- English: Fluent ■■■■■
- Malay: Fluent ■■■■□
- Chinese: Conversational ■■□□□
- Japanese: Basic ■□□□□

PROJECTS

FairPrice Online Shopping App (Python)

- Built a full Python-based shopping app simulating NTUC FairPrice's online system, featuring product browsing, cart management, checkout logic, and error handling.
- Implemented functions for adding/removing items, validating inputs, generating receipts, and tracking total expenditure. Strengthened understanding of algorithms, data structures, and user-oriented workflows.

Global Food Insecurity Tableau Dashboard

- Designed a Tableau dashboard mapping the impact of conflict on food insecurity across countries, visualising affected assets and attack types.
- Used Tableau Prep, feature engineering, and forecasting functions to uncover conflict-driven food insecurity trends and inform aid targeting.

NETS XP Rewards Store & Portals (Web App)

Group leader | Live demo: nets-grp-prototype.vercel.app

- Built the XP Rewards Store for a NETS banking app: tiered XP earning, cashback and voucher redemption, and a ledger with expiring XP.
- Built the sign-in page plus admin and merchant portals: admin manages users, merchants and rewards; stalls get sales insights and XP multiplier controls.

Clinic Digitalisation Proposal (Web App)

- Created a web-based concept to digitalise clinic operations, including bookings, digital records, queue flow, and staff dashboards.
- Mapped current vs. improved workflows to demonstrate efficiency gains and clearer patient-management processes.

PulseOps EMS Command Centre (Web App)

Group leader | Live demo: emspulseops.vercel.app

- Developed an EMS workforce management concept featuring automated, compliance-based crew rostering and live fleet monitoring.
- Designed an automated crew rostering and fleet-tracking system for EMS operations, modelling a reduction in manual planning time versus current workflows.
