ABOUT ME

Motivated FinTech student with hands-on experience in full-stack digital prototypes, data analytics, and operational systems. Proven track record in workflow optimisation, reconciliation ledgers, and disciplined performance across logistics and retail environments.

EDUCATION

Nanyang Polytechnic (2024–2027)

Diploma in Digital Business & Financial Technology (DBFT)

CCA: SIT Club

Peirce Secondary School (2020–2023)

GCE O-Levels (A in English)

CCA: Officer-in-Charge, St. John Brigade (SJAB)

TECHNICAL SKILLS

Programming & Web:

Python, JavaScript, TypeScript, React, Vite, HTML/CSS, Tailwind CSS

Data & Analytics:

Tableau Desktop, Tableau Prep, SQLite (WASM), Excel (Formulas, Pivot Tables)

FinTech & Product:

Role-Based Auth, Loyalty Economics, Financial Reconciliation, UI/UX Workflow Design

ACHIEVEMENTS

- **1st Runner-Up**, District Annual First Aid & Home Nursing Competition 2023
- **Best TOC, Best CPR, and Best Foot Drill Awards**
- Completed NCO Course, First Aid Instructor & BCLS Certification
- Led SJAB unit events and parades for 30–40 cadets

FEATURED PROJECTS

NETS App: XP Rewards Store & Multi-Portal System

React · TypeScript · Vite · SQLite (WASM) · Tailwind CSS | 2026

- Built the XP Rewards Store with real-time distance sorting and zero-balance-drift ledger derivation.
- Engineered multi-portal role-based flows: Customer XP Store, Merchant Campaign Dashboard (voucher creation & metrics), and Admin database audit explorer.
- Implemented instant cashback credit reconciliation on a unified transaction table with real NETS QR sandbox payment support.

PulseOps EMS Command Center

React · TypeScript · Vite · Tailwind CSS · Workflow Design | 2025

- Developed an operational EMS workforce management tool uniting roster building, absence coverage, fatigue signals, and CPF-aware payroll verification.
- Designed pre-assignment rule validation and candidate ranking for urgent ambulance crew replacement, modeling up to 50% reduction in manual planning.

Global Food Insecurity Dashboard

Tableau Desktop · Tableau Prep · Excel · Geospatial Analysis | 2025

- Unified multi-source conflict, drought, and food price datasets in Tableau Prep; engineered risk severity metrics and early-warning geospatial maps.

FairPrice Shopping Simulation App

Python · Algorithms · Input Validation · Data Structures | 2024

- Built terminal e-commerce flow with 100% input path validation, cart calculations, GST breakdown, and receipt generation.

PROFESSIONAL EXPERIENCE

Retail Assistant — Stacked Store

2025 – 2026 | Singapore

- Handled POS transactions for 100+ customers per shift across cash/card, closing daily with zero till discrepancies.
- Executed weekly stock takes and cycle counts, sustaining stock accuracy above 98%.

Customer Service Assistant — SAFRA Shooting Range

2024 – 2025 | Singapore

- Managed issuance and safekeeping of 200+ rifles weekly under strict safety protocols; processed bookings with 100% accuracy.
- Optimized equipment log sheet workflows, cutting customer wait times by up to 20% during peak hours.

Retail Assistant — LivActiv

Jan 2024 – Mar 2024 | Singapore

- Assisted 60–80 customers per shift with product choices; organized inventory and maintained zero cashiering errors.
